Speaking of the dynasty of the Kamehamehas he said no dark skinned race ever before produced such a remarkable one. He declared he was in favor of cutting up the lands so as to get them into the hands of home-makers. As to the Mc-Bryde lease he showed that it was for the purpose only of reservoir sites, and that the company could not use water from the lands, but must bring in water from its own lands.

has fallen from seeming health and strength in a single night into sickness or even death,
"How very sudden," people said. But if
they could see back a few years, they would
note the slow process of undermining of the
great organs, that preceded the fall. The
blood is tainted, the heart weakens, the liver enlarges or

hardens, the kidneys are overtasked. Some day, under the combined pressure, the body breaks down "suddenly."
But this undermining process does not go on without warning. There is friction in the machinery of the body. The heart is irregular in its action. The liver fails of its duty. The kidneys show their condition in the tainted current that flows by them. The stomach breaks down. The appetite fails. There is shortness of breath, dizziness, sleeplessness, foul mouth, and bad taste. These symptoms are some of the signs of the undermining of the health. You can stop this undermining of your health and life by using Kickapoo Indian Sagwa.

It searches out the weak places in the system. It gives strength where strength is needed. It does this because it restores the natural vitality of weak and enfeebled organs. It drives out obstructions, purifies the blood, and brings about a harmonious action of the chief organs of the body. Kickapoo Indian Sagwa is sold under a guarantee. Your money refunded if it does not fulfill every claim. Isn't this offer fair? At all druggists.
